Greeting, We are

Xero Technologies
Leap towards Innovation.

Our mission is to make professionals around the globe proficient
and future-ready. Our vision is to make signicant advancements
in technology so that we can make educational and Career
opportunities accessible to almost anyone.

Discover Greatness

---

01. **About Us**

Xero Technologies is an Educational Technology startup based in
Delhi, India.

We are currently building an **Educational Infrastructure** to provide
one-stop access to opportunities and Real-world skills. We are
taking initiative in the field of Impactful learning, early career
opportunities, corporate training, and career exploration, so you
can discover your "**Greatest Version**".

To back us up, we also provide technical support and
Software development service based on your product. Our focus
is sharply on product details, user-interactivity & high quality
design to create an enhanced experience.

Here are a few technologies we've been building products on:

- Android Application
- Web-Applications
- Digital Marketing
- Frontend UI-UX
  Designing
- Machine Learning
- Deep Learning
- Cyber Security
- Custom Software
  Development

Our Team @ Xero Technologies

30+ Interns and Associates | 6+ Universities of India

Xero Team

Skillzera Team

Anjali Singh

Dhruv Chandel

Aman Jha

- The Xero Technologies team has closely worked with *growing
  organisation* to deploy Products pretaining to the field of Web-
  Development, E-Commerce,Community Website, Android
  Applications, Social Media Applications, Machine Learning, Deep
  Learning, and Data Analytics.

- Also **Catering to Marketing requirements**, we have helped
  organizational development and creating marketing strategies for
  sales and awareness growth.

- Our Team consists of upcoming professionals from *Tech Giants* such
  as **Microsoft, Standard Chartered, Venue Monk, Google, Airtel**. We
  make software applications possible, by implementing **latest
  technological tech stacks, focussing on product details** and
  working with talented university students all across India.

- We are currently working towards building a *Global Educational
  Infrastructure-Covering* all aspects of Professional education.
  Fortunately, we will come through!
